

KVAS Notes 2/16/18

The KVAS met on 2/16/18 at 7:00 at the Hansford Center in St. Albans for the regular February meeting. Janet Willson called the meeting to order and the club voted Dan Pleska to fill the board position vacated by John Girori (2017-2020). The Treasurer's Report was read and accepted. Bob Frostick presented the constellation of the month Canis Major, The Big Dog. He is asking other members to also become presenters each month for a constellation of choice or from a list he has available. Also presented was, former member, Rick Archer's "Image Processing Basics".

Other business and/or needs:

If weather permits, the club will adjourn to Breezy Point after monthly KVAS meetings for those interested in viewing, as well as, training on the proper use of the telescope and identifying objects in the sky. Members will be notified when the observatory will be opened for additional days of observing and training.

A new lock has been purchased and keys will be made available for the door at the facility.

The eyepieces were found safe at the observatory.

Dan Pleska is arranging an email for the club.

KVAS will meet in an alternate room at the Hansford Center starting in March.

KVAS brochures are ready for distribution for Blackwater Falls and other sites. These will be delivered by Janet Willson, Rodney Waugh and Scott Blake.

Jason Young is the new director at Camp Virgil Tate, and he would like to be notified when anyone is coming to Breezy Point.

Camp Virgil Tate lawyer, Johnnie Brown, will have a land lease agreement ready for signing on March 12. Insurance for Breezy Point is still on discussion.

Needs for the future for Breezy Point are repairs, new gravel, removal of rust on the roof and paint for roof and west wall.

There was also discussion of a future Astronomical facility for training and presentation at Breezy Point.

The next meeting will be at the Hansford Center on March 16, 2018 at 7:00. Come join us.

If you would like to volunteer to help with any Blackwater Falls activity, please contact Janet Willson as everyone is welcome and all help is appreciated.
